

COMPREHENSIVE DEVELOPMENT ECONOMIC STRATEGY

2010 Annual Report

West Piedmont Economic Development District

*Serving the Counties of Franklin, Henry, Patrick, & Pittsylvania;
Cities of Danville & Martinsville; Town of Rocky Mount*

This project was supported by a grant from the

U.S. Economic Development Administration

This report was prepared by the West Piedmont Planning District Commission, an EDA-designated Economic Development District, under planning investment award 01-83-08468-01 from the Economic Development Administration, U.S. Department of Commerce. The statements, findings, conclusions, and recommendations are those of the authors and do not necessarily reflect the views of the Economic Development Administration, U.S. Department of Commerce.

CHAPTER 1

ORGANIZATION AND MANAGEMENT

THE CEDS COMMITTEE

In accordance with Section 403 of the Public Works and Economic Development Act of 1965 (Public Law 89-136), the Assistant Secretary for Economic Development of the U.S. Department of Commerce, Economic Development Administration, announced the designation of Planning District 12 as an Economic Development District on June 24, 1992. Planning District 12--the West Piedmont Planning District--is comprised of the Cities of Danville and Martinsville; the Counties of Franklin, Henry, Patrick, and Pittsylvania; and the Town of Rocky Mount.

The West Piedmont Planning District Board of Commissioners, which serves as the West Piedmont Comprehensive Economic Development Strategy (CEDS) Committee, consists of 21 members representative of various occupations and interests within the Planning District. Each member jurisdiction has three representatives--two elected officials and one appointed citizen representative. A membership list is provided on the following page.

The CEDS Committee's role in developing this Comprehensive Economic Development Strategy document--formerly the Regional Overall Economic Development Program document--for the Planning District is to provide the initial leadership in promoting and developing economic growth and development program for Franklin, Henry, Patrick, and Pittsylvania Counties, the Cities of Danville and Martinsville, and the Town of Rocky Mount.

The Charter of the West Piedmont Planning District Commission was adopted on March 15, 1970, and amended on March 15, 1973. The West Piedmont Planning District Commission is one of twenty-one planning districts within the Commonwealth of Virginia, created as a result of the Virginia Area Development Act of 1968 to promote the orderly and efficient development of the physical, social, and economic elements of the region and of the jurisdictions within its boundaries.

The West Piedmont Planning District Commission prepares an Annual Strategy Statement/Work Program which (a) describes each task to be performed, (b) identifies the staff person to be responsible for completing each task, and (c) establishes a timetable (i.e., through the assignment of manhours) for each work effort. This work program provides the agenda for the West Piedmont Comprehensive Economic Development Strategy Committee.

The West Piedmont Planning District employs a permanent professional staff, which includes a Regional Economic Development Planner. The staff is responsible for collecting and analyzing information on the economy, identifying strategy options, and preparing detailed implementation plans as well as preparation applications invited for submission by the Economic Development Administration. The staff is also responsible for development of performance measures (i.e., program evaluation and implementation activities) for the Economic Development District utilizing EDA's program guidelines.

CEDS Development Process:

The West Piedmont Economic Development District has established a process for annual updates to its CEDS document. Utilizing a Project Management Team (see list included at the front of this document), the Regional Economic Development Planner requests input as needed for various components of the document. Team members may then obtain input from other individuals or agencies with regard to sections pertaining to their jurisdiction or the region as a whole. The planning process is ongoing, with development of document updates beginning as soon as submitted to EDA in June of each year. The Regional Economic Development Planner begins to work with localities on development of prioritized projects for inclusion in the document in the fall of each year, with the localities being given two to three months for development, review, and local governing body approval of the upcoming year's prioritized project list. After all localities have submitted their project lists, the EDD staff then submits a final regional list to all of the local government administrators for a final review for accuracy.

Demographics included in the CEDS document are updated on an ongoing basis as new information becomes available from a variety of agencies including the Census Bureau, the Weldon Cooper Center for Public Service at the University of Virginia, the Virginia Employment Commission, and numerous other state and federal agencies. Following development of the draft CEDS report, the staff distributes copies to CEDS Committee members usually at their April meeting. This gives the CEDS' members a full month to review and communicate with the staff concerning any questions or comments they wish to make prior to final review and approval at the upcoming May meeting. All local government administrators also receive a copy at that time for review. Copies of the PDC/EDD agendas with information on review of the CEDS document are distributed to local news media within the Region.

Following EDD approval, the document is submitted to the Richmond and Philadelphia offices of EDA for approval. Many agencies and organizations across the Region utilize demographics and other information within the report for development grant applications and reports for the benefit of the Region. In June 2002, the EDD began making a summary of information from its CEDS document available on its website:

Jerry Adams (Patrick County)	County appointed	Business
Karl Weiss (Patrick County)	County elected	Local Government; Business
Henry Davis (Pittsylvania County)	County appointed	Local Government; Business
James E. Astin, Jr. (Pittsylvania County), Treasurer	County appointed	Business; Agriculture; Community Organizations
William Pritchett (Pittsylvania County)	County elected	Local Government; Business (retired); Community Organizations; Minority
Bill Brush (Franklin County)	County appointed	Business; Community Organizations
Leland Mitchell (Franklin County)	County elected	Local Government; Business; Agriculture
Bobby Thompson (Franklin County)	County elected	Local Government; Education; Community Organizations
Jerry Greer (Rocky Mount)	Municipal elected	Local Government; Business
Ralph Casey (Rocky Mount)	Municipal appointed	Business; Utility; Minority
Roger Seale (Rocky Mount)	Municipal elected	Local Government; Community Organizations

Note: 66.7% of the West Piedmont Planning District Board members are elected officials.

THE DISTRICT AND ITS ECONOMY

The West Piedmont Planning District, one of twenty-one planning districts in the Commonwealth of Virginia, is comprised of the Counties of Franklin, Henry, Patrick, and Pittsylvania; the Cities of Danville and Martinsville; and the Town of Rocky Mount. The Region includes approximately 2,600 square miles and had a population of 250,195, according to the 2000 Census.

Located in the southwestern Piedmont of Virginia, the Planning District is bordered on the west by the Blue Ridge Mountains and lies some 150 miles southwest of Richmond, the State Capital. Less than 200 miles to the east are the extensive port facilities of Norfolk, Newport News, and Portsmouth; a short distance to the south lies the industrial crescent of the North Carolina Piedmont; and about 100 miles to the northwest are the Appalachian coalfields of Virginia and West Virginia.

The Roanoke (Staunton) River forms the northeastern border of the Planning District flowing in a southeastern direction towards the Atlantic Ocean. Portions of the Roanoke River Basin, in which the Planning District lies, are developing into major commercial and industrial concentrations. Recreational development and associated business development within the Region also have expanded due to the presence of Smith Mountain and Leesville Lakes, Philpott Lake, Fairy Stone State Park, and the Blue Ridge Parkway.

Four federal highways (U.S. Highways 29, 58, 220, and 360) and twenty state primary routes provide the localities of the Planning District with access to each other and the rest of the nation. In addition, the Region is served by Norfolk Southern rail lines, numerous truck lines, and air service from the Danville Regional Airport and Blue Ridge Airport (Henry County).

The following map illustrates the location of the West Piedmont Planning District in relation to both Virginia and the middle and south Atlantic states of the Eastern Seaboard. The map indicates the close proximity of the Region to major trade areas, many of which are within a 200-mile radius. The market area defined is in excess of 15 million total population.

General Description

The West Piedmont Planning District, one of twenty-one planning districts in the Commonwealth of Virginia, is comprised of the Counties of Franklin, Henry, Patrick, and Pittsylvania; the Cities of Danville and Martinsville; and the Town of Rocky Mount. The Region includes approximately 2,600 square miles and had a population of 250,195, according to the 2000 Census.

Located in the southwestern Piedmont of Virginia, the Planning District is bordered on the west by the Blue Ridge Mountains and lies some 150 miles southwest of Richmond, the State Capital. Less than 200 miles to the east are the extensive port facilities of Norfolk, Newport News, and Portsmouth; a short distance to the south lies the industrial crescent of the North Carolina Piedmont; and about 100 miles to the northwest are the Appalachian coalfields of Virginia and West Virginia.

The Roanoke (Staunton) River forms the northeastern border of the Planning District flowing in a southeastern direction towards the Atlantic Ocean. Portions of the Roanoke River Basin, in which the Planning District lies, are developing into major commercial and industrial concentrations. Recreational development and associated business development within the Region also have expanded due to the presence of Smith Mountain and Leesville Lakes, Philpott Lake, Fairy Stone State Park, and the Blue Ridge Parkway.

Four federal highways (U.S. Highways 29, 58, 220, and 360) and twenty state primary routes provide the localities of the Planning District with access to each other and the rest of the nation. In addition, the Region is served by Norfolk Southern rail lines, numerous truck lines, and air service from the Danville Regional Airport and Blue Ridge Airport (Henry County).

The map that follows illustrates the location of the Planning District in relation to both Virginia and the middle and south Atlantic states of the Eastern Seaboard. The map indicates the close proximity of the Region to major trade areas, many of which are within a 200-mile radius. The market area defined is in excess of 15 million total population.

The following denotes the individual jurisdictions that together comprise the West Piedmont Planning District. Their geographical locations and governmental makeup are outlined in summary form.

Franklin County--Seventh in size of land area among Virginia counties, Franklin County is bounded on the north by Roanoke and Bedford Counties, on the east by Pittsylvania County, on the south by Henry and Patrick Counties, and on the west by Floyd County. The Town of Rocky Mount is the county seat and the County's largest incorporated town. The Town of Boones Mill, the village of Ferrum, and the Smith Mountain Lake Region are population centers. Franklin County's population, according to the 1990 Census, was 39,549; the 2000 population for the County, according to the Census Bureau, was 47,286. [The 2000 population from the Census Bureau includes the Town of Rocky Mount's population. On June 30, 2000, the Town of Rocky Mount annexed a portion of Franklin County through a voluntary settlement agreement. Census data will not reflect the annexation of 654 persons and 1.53 square miles by Rocky Mount. In 2002, the Town took in another 417 acres in boundary adjustment.]

In 2003, Franklin County, along with Craig County, was added to the Roanoke Metropolitan Statistical Area. Previously, the Roanoke MSA included Roanoke City, Roanoke County, Salem City, and Botetourt County. Prior to the addition of Franklin and Craig Counties, the Roanoke MSA population totaled 235,932. With Franklin's 47,286 and Craig's 5,091 residents, that total increased to 288,309.

Franklin County is divided into seven voting districts with each electing one representative to serve on the Board of Supervisors for a four-year period. There is a County Administrator who is directed in financial and business policies by the Board of Supervisors.

Henry County--Developing into a largely urban county itself, the County lies south of Franklin County and is bordered on the east by Pittsylvania County and on the west by Patrick County. The County lies along and north of the Virginia-North Carolina border. Urban areas of the County adjoin the City of Martinsville and include the Town of Ridgeway. Collinsville, located to the northwest of the City of Martinsville, serves as the county seat. Henry County's population, according to the 1990 Census, was 56,942; the 2000 population for the County, according to the Census Bureau, was 57,930.

Henry County contains six voting districts with a representative of each district serving a four-year term on the Board of Supervisors. This body sets policies to guide the actions of the County Administrator.

[Patrick County](#)--Located in one of the more scenic areas of Virginia, the County is bordered on the north by Franklin and Floyd Counties and on the south by North Carolina. It lies west of Henry County and east of Carroll County. Its urban population centers around the Town of Stuart. Effective January 1, 2007, the Town of Stuart annexed approximately 568 persons from within the County and a total of 1,447 acres. Patrick County's population, according to the 1990 Census, was 17,473; the 2000 population for the County, according to the Census Bureau, was 19,407.

Patrick County's Board of Supervisors is composed of one member from each of the five voting districts. A County Administrator directs the functions of County government with policies set by the Board.

[Pittsylvania County](#)--The County, the largest Virginia county in terms of land area, has the Town of Chatham as its county seat and setting for an urban concentration. Other areas of urban populations are the Towns of Gretna and Hurt. The County is bordered on the north by Campbell and Bedford Counties and to the south by North Carolina. Halifax County lies to the east with Henry and Franklin Counties to the west.

In January 1988, an annexation went into effect whereby territory was lost to the City of Danville which shifted 10,300 persons from the County to the City. Pittsylvania County's population, according to the 1990 Census, was 55,655; the 2000 population for the County, according to the Census Bureau, was 61,745. In early 2008, the Town of Hurt and Pittsylvania County went through a boundary adjustment of 610 acres consisting of the former Burlington property. No population was involved.

Pittsylvania County also has a county administrator form of government with a seven-member Board of Supervisors setting guidelines for administration and policy.

[Danville City](#)--The City is located in the south central portion of Pittsylvania County, along the border with North Carolina. Founded in 1793, the City has a background rich in history. As noted above, the City annexed a portion of Pittsylvania County in January 1988 at which time the Center for Public Service estimated population for the City increased to 53,700. The City's population, according to the 1990 Census, was 53,056; the 2000 population for the City, according to the Census Bureau, was 48,411.

After the 1980 Census, the City of Danville and Pittsylvania County were designated as a Metropolitan Statistical Area by the Census Bureau. This qualified the area to establish a Metropolitan Planning Organization through the Federal Highway Administration. The City is also eligible to receive Entitlement Funds through the U.S. Department of Housing and Urban Development's Community Development Block Grant Entitlement Program. The Danville MSA had a 1990 population of 108,711 and a 2000 population of 110,156 according to the Census Bureau.

The City Council is composed of nine members elected at large who govern through a city manager form of government.

[Martinsville City](#)--The City is located in the geographic center of Henry County. The City forms the base for a large urban population corridor within Henry County. The City's population, according to the 1990 Census, was 16,162; the 2000 population for the City, according to the Census Bureau, was 15,416.

The City Council is composed of five members elected at large who govern through a council-manager form of government.

[Rocky Mount Town](#)--The Town is located near the geographic center of Franklin County and serves as the county seat. According to the 1990 Census, Rocky Mount's population was 4,098. The Town's 1998 population estimate was 4,469, according to the Census Bureau; the 2000 population for the Town, according to the Census Bureau, was 4,565. On June 30, 2000, the Town of Rocky Mount annexed a portion of Franklin County. Since the voluntary annexation occurred after the Year 2000 Census boundary descriptions were set, the Town population for 2000 does not reflect the Town's annexation of 654 persons and 1.53 square miles of area from Franklin County to the Town of Rocky Mount. In 2002, the Town took in another 417 acres in boundary adjustment.

The Town is governed by a seven-member council with managerial responsibility delegated to a Town Manager.

District Goals

Goals

Strategies

	<i>Short-Term</i>	<i>Long-Term</i>
1. Enhance regional identity and vision.	<ul style="list-style-type: none"> • Continue to support local economic development organizations, focusing on communication efforts. • Strengthen public participation and leadership • Develop a regional marketing approach. • Encourage the marketing of travel and tourist-Related as well as industrial sectors. 	<ul style="list-style-type: none"> • Promote continued commercial and industrial growth throughout region. • Promote cooperation among jurisdictions in industrial land, infrastructure and other areas. • Create a pipeline of emerging leaders by strengthening existing programs (such as Leadership Southside) and creating new leadership programs. • Develop a regional approach to workforce development to create a high-skill, high-wage workforce.
2. Retain and expand existing industries.	<ul style="list-style-type: none"> • Encourage local industries to expand and invest in the Region. • Reduce the regional unemployment rates. • Recognize "transferable" skills when determining industry targets. • Focus on job placement efforts for dislocated workers. 	<ul style="list-style-type: none"> • Create programs to support existing (as well as new) industries.
3. Encourage regional economic diversity.	<ul style="list-style-type: none"> • Recruit new diversified manufacturing and service sector industries. • Promote advanced technology within the region. • Support development of technology parks and necessary infrastructure. • Support development of regional industrial parks as well as local industrial parks with regional impact. 	<ul style="list-style-type: none"> • Reduce the dependence on textiles, furniture and wood-related products. • Evaluate target industries regularly with respect to the changing local and national economy. • Promote and encourage the development of tourism in the region.

Goals (continued)

Strategies

Short-Term

Long-Term

4. Provide the land development infrastructure needed to grow the regional economy.	<ul style="list-style-type: none"> ♦ Complete site preparation at existing industrial sites. ♦ Construct new industrial shell buildings. ♦ Rehabilitate vacant, underutilized buildings for industrial development purposes. 	<ul style="list-style-type: none"> ♦ Acquire and develop local and regional industrial sites that can compete favorably on a global basis. ♦ Continue to develop public water and wastewater systems in all areas where such systems are deemed economically feasible to meet the needs of existing and planned residential, commercial and industrial growth. ♦ Promote an ongoing industrial shell building program.
5. Increase educational opportunities, especially with respect to technology.	<ul style="list-style-type: none"> ♦ Support programs of community colleges for economic and workforce development. ♦ Support implementation of Workforce Investment Act at local and regional levels. ♦ Expand RCATT (Regional Center for Advanced Technology and Training) and other advanced technical training programs. 	<ul style="list-style-type: none"> ♦ Support four-year college initiatives in Region (i.e., New College Institute, Ferrum College, Averett University) ♦ Develop educator/business partnerships ♦ Support existing (i.e., RCATT) and create more Regional technology centers ♦ Expand relationships with institutions of higher learning
6. Strengthen connection between workforce skills and training programs.	<ul style="list-style-type: none"> ♦ Provide necessary job training and development programs that encourage pride as well as skill in the workplace and that match the requirements of existing and prospective employers. ♦ Continue to support RCATT (Regional Center for Applied Technology and Training). 	<ul style="list-style-type: none"> ♦ Provide a highly trained and motivated work force. ♦ Develop the West Piedmont Workforce Investment Board to be a unified governing structure to oversee the planning, development, implementation, and assessment of a comprehensive set of workforce strategies ♦ Expand the capacity of Adult Education Centers to reach and train more adults in the region who lack a GED.
7. Encourage "pro-business" thinking.	<ul style="list-style-type: none"> ♦ Expand dialogue between labor and business community. 	<ul style="list-style-type: none"> ♦ Promote the region as a positive place to do business.

Goals (continued)

Strategies

	<i>Short-Term</i>	<i>Long-Term</i>
	<ul style="list-style-type: none">♦ Encourage the development of new enterprise zones in the region.	<ul style="list-style-type: none">♦ Strengthen business/government partnerships within the region.
8. Further develop small and minority businesses.	<ul style="list-style-type: none">♦ Nurture new business formation and new spin-off activities.♦ Expand venture capital for new and existing industries.	<ul style="list-style-type: none">♦ Support expansion of existing incubator facilities and satellite facilities as needed.♦ Encourage and support the creation of new and existing enterprise zones in the region.
9. Improve overall quality of life.		<ul style="list-style-type: none">♦ Improve schools and educational opportunities.♦ Expand recreation opportunities for residents and tourists.♦ Preserve natural environment.♦ Promote and encourage low- and moderate-income single-family housing as a compliment to industrial development in the region.
10. Improve regional transportation infrastructure.	<ul style="list-style-type: none">♦ Promote construction of I-73.♦ Support upgrade of Route 29 corridor.♦ Complete Route 58 Corridor Program.♦ Complete projects on I-785 corridor.	<ul style="list-style-type: none">♦ Continue to provide and encourage development of a transportation network that will give access to industrial sites and link the Region to major trade centers.
11. Create modern communications infrastructure	<ul style="list-style-type: none">♦ Continued support development of fiber-optic network.♦ Establish the Multimedia Service Access Point (MSAP), a low-cost broadband communication.	<ul style="list-style-type: none">♦ Work with educational institutions to create world-class communications network.
12. Preserve agricultural base and promote modern agricultural enterprises.	<ul style="list-style-type: none">♦ Attract agri-business and industry to the Region as a compliment to existing agricultural enterprise.	<ul style="list-style-type: none">♦ Promote bio-technology.♦ Enhance the agricultural sector as a strong component of a diversified economy.♦ Explore business development options in agricultural diversification in areas like nutraceuticals and aquaculture
