

Data Collection

- Geographic Information System framework
- DEQ database and VDH files
- USDA National Agricultural Statistics Service
- Groundwater data versus estimation
- Growth projections

Data Collection

- Existing water source information
 - Community systems
 - Self-supplied users
 - Agricultural users
 - Groundwater information
 - Water purchases
 - Source Water Assessment Plans

Data Collection

- Existing water use information
 - Population
 - System connections
 - Withdrawal rates
 - Quantified use by category
 - Unaccounted for losses
- Existing resource information
 - Physical description – geology, hydrology, meteorology
 - Environmental description
