## Summary Note:

The Danville MPO has also been requested to consider an Amendment to the FY 2012 – FY 2015 Transportation Improvement Program. The amendment would be to include funding for PE (Preliminary Engineering) work on future development of spot improvements and access management on a segment of Mount Cross Road from Lowes Drive out to the corporate limits of Danville. The amount for the PE work totals \$480,000 with a \$120,000 match. The total cost of the project, including construction is expected to cost \$6,000,000; funds for completing the project construction will await future programming and scheduling in a Six Year Improvement Program. The PE work carries the UPC No. 100822. The PE work was recently added to VDOT's Six Year Improvement Program by the CTB; the timing of funding requires it to be added to the FY 2012-FY2015 TIP.
